PSHE! What are you doing at home?

Aim: I can think responsibly to plan my time away from school.

Task 1: Make a list of the things you have done at home so far this first week. Think about school work, computer games, and chores around the house.

Task 2: Due to the lockdown, you may not be back to school for 1, 2 or even 3 months. During that time, what do you want to achieve?

Make a list of things you want to do.

What do you want to get better at? Maths, English, football, cooking, art, computer programming, science.

Do you want to learn a new skill? How to draw, how to sew, how to play an instrument.

Thinking about these things, make a list of 2 or 3 new skills or subjects you want to get better at. Remember, it has to be possible. Don't pick you want to learn how to play the piano, if you don't have a piano!

Task 3: It's time to think about others in your house! You may be sharing a small space. How are you going to make the time as good and happy as possible?

Make a list of ways you can help others in your house. Keeping your room tidy. Sharing computer and TV time. Reading books together. Help siblings with their homework.

Remember, being kind to others and sharing smiles, is the best way to get through these incredibly different and difficult times.

Task 4: What is your best tip to people to make sure everyone has the best time they can stuck at home?
