St Bart's Core Principles:

Stimulate
Challenge
Investigate
Enquire
Nurture
Captivate
Enrich

This year we are trying to increase the children's love of science. Our aim is that science will stimulate children's imagination and learning; challenge their ideas and understanding. Children will investigate and enquire celebrating their curiosity, whilst being nurtured by the teacher. Science is practical to captivate and enrich children's enthusiasm.

We would love your support in discussing science lessons with your child(ren) to share our enthusiasm for the subject.
